ÉTAT ET BESOINS DE SANTÉ

Déterminants de la santé

À la base de l'état de santé des personnes se trouvent les déterminants de la santé, tels que les habitudes de vie, les expériences de la petite enfance, le logement, l'emploi, la discrimination, etc. On trouvera dans cette section également les facteurs de risque et de protection, soit l'ensemble des éléments en amont des difficultés physiques et mentales.

Abu-Ras, W., Al-Quraini, M., Amin, S., Al-Qaisi, S. T., & Idris, L. B. (2026). Widowed and displaced: Spiritual and religious coping in mental health recovery among Syrian refugee women in Türkiye. *Women's Health*, 22, 17455057261416249. <https://doi.org/10.1177/17455057261416249>

AGENTS DE CHANGEMENT & SENSIBILISATION

Cette section porte sur les agents de changement qui sensibilisent les parties prenantes dans les soins et services aux personnes réfugiées et en demande d'asile. Elle porte également sur les leviers (outils, documents, interventions, etc.) utilisés, entre autres, afin de promouvoir leurs droits et déconstruire les préjugés. En anglais on parle souvent de venir en soutien à « l'empowerment » des personnes réfugiées ou en demande d'asile et « d'advocacy » ou plaidoyer.

Croxtton, R., Adžemović, T., Patel, P. K., Scruggs-Wodkowski, E. A., & Ladines-Lim, J. B. (2026). Ongoing guidance for infectious disease care for migrants and immigrants: a case-based narrative review. *Antimicrobial Stewardship & Healthcare Epidemiology*, 6(1), e144. <https://doi.org/10.1017/ash.2026.10390>
